TO: File  
FROM: Scott Johnson, Reclamation Engineer *hcd*  
RE: Tenneco, Goldstrike Mine, M/053/005

Ken Kluksdal called this morning. Yesterday, Tenneco started laying down initial 6" clay for heap pads. He anticipates the initial construction phase for the project will be completed by the week of December 12-16.

By the end of this week, Tenneco will be in the office trailer on the mine site. I told Ken we would be in the area during the first week of December. He suggested we stop by if we have time.
